

SERVICE
EXCELLENCE FOR
UNINTERRUPTED
LAB PERFORMANCE

GD Waldner

100 A CENTURY OF
DISCOVERY
SINCE 1924

Minimize Downtime, Maximize Performance

Great products, when backed by exceptional service solutions, maximize your lab's performance and minimize operational disruptions. GD Waldner Service's proactive maintenance, rapid response times, and expert support ensure your lab's peak efficiency, letting you focus on breakthrough research without interruption.

Diverse industry sectors encounter different challenges and have varied research and testing needs. Laboratories play a crucial role in addressing and providing optimal solutions to these complex challenges.

GD Waldner excels in delivering bespoke solutions to laboratories across diverse sectors, such as pharmaceuticals, chemicals, testing and research, education, food & beverage, electric mobility, and biotechnology & life sciences. Our team, comprising professionals with extensive industry experience, is adept at providing tailored solutions to these sectors.

At GD Waldner, we specialize in providing a wide range of services exclusively designed for laboratories at the forefront of ground-breaking discoveries.

Tailored Services to Suit Your Needs

Fume Hoods

Regular maintenance of fume hoods ensures maximum safety and performance.

Exhaust (Blowers, Scrubbers)

Ensure efficient and safe operation of exhaust, extending the life of your fume hood blowers.

Fume Hood Controllers

Comprehensive maintenance and calibration service for fume hood controllers (AC3/ AC4/ TEL).

Certification/Validation

Our certification and validation processes further guarantee compliance and reliability.

Tri-Colour Fume Hood Laser Testing System

The Tri-Colour Airflow Visualizer technology not only provides a clear visual confirmation of airflow patterns and hood performance with the help of lasers, but also offers an immediate, intuitive alert system. With highly visible colors you can quickly ascertain the operational status of a fume hood. This visual feedback is actionable and easy to understand, regardless of your experience level.

Fume Hood Performance Tracker Labelling System

Scan the QR code, input the Hood ID, and access instant, comprehensive information and test results across installations. Whether checking databases for buildings, floors, or rooms, this tool serves testers, users, and lab managers by ensuring compliance, and saving time in certification, validation, and maintenance.

Ventilated Chemical Storage Cabinets

Regular maintenance, repairs, and compliance checks to ensure optimal performance of your chemical storage cabinets.

Laboratory Furniture

Keep your lab furniture in peak condition with our experts checking the hardware like hinges, locks, drawer slides, glass and handles.

Application Training and Awareness Workshop for Users

Empower your scientists with our hands-on application training and awareness workshops.

Spot Extractors/Enclosures

Detailed ventilation checks on spot extraction units in the lab.

At GD Waldner, AMC means PMC

Our Annual Maintenance Contract (AMC) means your PMC (Peace of Mind Contract) as it includes preventive maintenance, calibrations, and validations. This ensures compliance with internal and regulatory standards and peak performance. We provide round-the-clock active service support and technical assistance during lab breakdowns or issues. Our trained service personnel are available anytime via website, phone, or email for prompt assistance.

Benefits

Expertise Across Brands

We offer cross-vendor maintenance by expert technicians, ensuring comprehensive service regardless of equipment brand.

Enhanced Efficiency

Service includes annual monitoring and scheduled maintenance, minimizing downtime and optimizing equipment performance.

Compliance Assurance

Ensuring adherence to legal standards and industry regulations, providing peace of mind.

Cost Efficiency

Optimizing energy use and maintain control components to reduce operational costs effectively.

Genuine Parts Guarantee

We use only original spare parts during repairs ensuring lasting performance and reliability.
